Antepartum Bed Rest Judith A. Maloni 1998

**Maternity Nursing - E-Book** Gloria Leifer 2013-12-27 From prenatal through postpartum care, Gloria Leifer's *Maternity Nursing: An Introductory Text* provides an essential foundation for promoting the health and wellness of mothers and newborns. This edition includes the latest advances and practice standards in maternity nursing care, highlighting Healthy People 2020 and the 2011 Joint Commission National Patient Safety Goals. Part of the popular LPN Threads series, this text addresses the knowledge, skills, and scope of practice appropriate for LPN/LVN and LPN/LVN-to-ADN ladder programs. Chronological organization of content follows a sequence from family issues, fetal development, pregnancy, labor, birth, and care of the newborn, to postpartum issues with special social, familial, and cultural considerations. Organization of concepts in each chapter by simple to complex and from health to illness makes it easier to locate and understand the material. Complete, concise coverage includes a table of physiologic and psychosocial changes throughout the pregnancy, unique content on CPR for the pregnant patient and infectious diseases acquired during pregnancy, a pictorial story of a vaginal birth, cultural considerations of pregnancy and maternal care, and nursing responses to loss, death, and grief. **UNIQUE!** A FREE Study Guide in the back of the book reinforces understanding with multiple-choice, fill-in-the-blank, scenario-based clinical situation questions, and online activities. *Nursing Care Plans* with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. *Health Promotion* boxes and content focus on family-centered care, health promotion, illness prevention, and women's health issues. *Clinical Pathways* use an interdisciplinary, collaborative-care approach in tracking interventions along a timeline from assessment to discharge and follow up. Online resources for further research and study are included at the end of each chapter. **UNIQUE!** LPN Threads make learning easier, featuring a 10th-grade reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Case Files Obstetrics and Gynecology, Fifth Edition Eugene C. Toy 2016-07-06 **SHARPEN YOUR CRITICAL THINKING SKILLS AND IMPROVE PATIENT CARE** Experience with clinical cases is key to mastering the art and science of medicine and ultimately to providing patients with competent clinical care. Case Files®: Obstetrics & Gynecology provides 60 true-to-life cases that illustrate essential concepts in obstetrics and gynecology. Each case includes an easy-to-understand discussion correlated to key concepts, definitions of key terms, clinical pearls, and USMLE®-style review questions to reinforce your learning. With Case Files®, you'll learn instead of memorize. Learn from 60 high-yield cases, each with board-style questions. Master key concepts with clinical pearls. Cement your knowledge with 25 new integrated challenge questions. Polish your approach to clinical problem solving and to patient care. Perfect for medical students, physician assistant students, nurse midwife and nurse practitioner students.

Case Studies in Maternity and Pediatric Nursing Diann S. Gregory 2008 Created especially for nurses, the *Clinical Decision Making* series helps to bridge the gap between content knowledge and clinical application. *Case Studies in Maternity and Pediatric Nursing* provides 80 nursing case histories that include critical thinking questions and answers based on real-life client situations. Every case contains a blueprint of variables that must be considered while evaluating a particular scenario, and are pertinent concerning the client nursing protocol and setting of care. Examples of these variables include age, gender, cultural influences, pre-existing conditions, legal issues, or communication skills. Each blueprint and case is different just as each clinical situation is unique. By simulating the decision-making process, learners gain the confidence needed to make informed clinical judgments that will make them successful practitioners. Simply stated, *Clinical Decision Making* shortens the distance between theory and practice like no other educational tool!

*Case Studies in Nursing Ethics* Sara T. Fry 2006 *Case Studies in Nursing Ethics* presents basic ethical principles and specific guidance for applying these principles in nursing practice through analysis of over 150 actual ethical case study conflicts that have occurred in the practice of nursing. Each case study allows readers to develop their own approaches to the resolution of ethical conflict and to reflect on how the traditions of ethical thought and professional guidelines apply to the situation.

*Maternity and Pediatric Nursing* Susan Scott Ricci 2009 Authors Susan Ricci and Terri Kyle have teamed up to deliver a unique resource for your students to understand the health needs of women and children. This new combination book, *Maternity and Pediatric Nursing*, will empower the reader to guide women and their children toward higher levels of wellness throughout the life cycle. The textbook emphasizes how to anticipate, identify, and address common problems to allow timely, evidence-based interventions. Features include unfolding case studies throughout each chapter, multiple examples of critical thinking, and an outstanding visual presentation with extensive illustrations depicting key concepts. A bound-in CD-ROM and a companion Website include video clips and NCLEX®-style review questions.

*Winningham's Critical Thinking Cases in Nursing - E-Book* Mariann M. Harding 2015-01-10 Highly regarded for its clinically relevant and thought-provoking content, *Winningham's Critical Thinking Cases in Nursing*, 6th Edition features 150 case studies that cover all four clinical practice areas: medical-surgical, pediatric, OB/maternity, and psychiatric nursing. Each case covers a common patient problem, drawn from actual clinical experiences and written by nurses who are clinical experts. This edition reflects the most current standards of clinical practice, including content on pharmacology, nutrition, and diagnostic/laboratory tests to prepare you for all aspects of patient care. From nursing educators Mariann Harding and Julie Snyder, this workbook helps you develop your clinical nursing judgment and bridge the gap from nursing knowledge to nursing practice. Comprehensive case study approach uses cases drawn from actual clinical experiences to help you identify changes, anticipate possible complications, and initiate therapeutic interventions. Progressive case complexity builds on previous learning and helps you develop more and more expertise. 150 case studies cover all major clinical areas, including medical-surgical, pediatric, OB/maternity, and psychiatric cases, providing you with many diverse clinical situations and opportunities to apply knowledge and develop critical thinking skills. Body system organization makes the book easier to use with medical-surgical nursing textbooks and courses. **NEW!** QSEN icons highlight essential safety content. **NEW!** Increased emphasis on NCLEX® Exam-style alternate-format questions includes multiple-response, prioritization, and illustration-based questions, offering better NCLEX Examination preparation. **NEW!** Additional documentation questions and a NEW Chart View design provide more experience in documenting patient care based on real-world electronic chart formats. **NEW!** Reorganized format presents cases in three parts: 1) medical-surgical cases; 2) pediatric, maternity, and women's health cases; and 3) psychiatric and alternative therapies cases. **NEW!** Increased difficulty level includes more questions about care of older adults and multi-system situations. **UPDATED** content includes the latest clinical treatment guidelines, issues, and practice standards.

*Surgical Oncology Case Studies* H. Mason Morfit 1978

*Winningham and Preusser's Critical Thinking Cases in Nursing* Barbara A. Preusser 2009 A collection of case studies for nursing students and practitioners offers 148 examples that foster creative thinking skills in medical-surgical, pediatric, maternity and psychiatric situations.

**Unfolding Case Studies** Kellie J. Glendon 2000-10 This comprehensive workbook contains a compilation of unfolding cases across the discipline of nursing, and includes unique aspects of nursing regarding spirituality, family issues, community as client, and gerontology concerns. It integrates concepts of age, setting, role development, and ethical/legal issues. Users gain a simulated experience in prioritizing nursing problems, identifying appropriate teaching strategies, documenting nursing care, and critically analyzing the totality of common situations encountered in professional nursing practice. Unfolding case models deal with obstetrics, pediatrics, mental health, medical surgery, and assorted cases regarding such issues as: falls in the elderly, urinary incontinence, aging, sleep-rest changes, managing staff conflict, public health nursing, vital signs, confidentiality, and spirituality. For educating student and staff nurses in various nursing programs.

*Maternity Nursing - Revised Reprint - E-Book* Deitra Leonard Lowdermilk 2014-04-14 Designed to meet the needs of today's students, *Lowdermilk's Maternity Nursing*, 8th Edition — Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. *Maternity Nursing* focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and management of common women's health problems. *Critical thinking exercises* present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. **NEW!** A helpful appendix identifies text content that reflects the QSEN competencies — patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics — to assist you in developing competencies to provide safe and effective nursing care. **NEW!** Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. **NEW!** Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. **NEW!** Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. **NEW!** Improved readability helps you learn more efficiently with shorter, more focused content discussions. **NEW!** 21st Century *Maternity Nursing: Culturally Competent, Community Focused* chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts. **NEW!** Streamlined content highlights the most essential, need-to-know information.

*Clinical Decision Making* Diann S. Gregory 2006 Created especially for nurses, the *Clinical Decision Making* series helps to bridge the gap between content knowledge and clinical application. *Case Studies in Maternity & Women's Health* is the first installment in this innovative series, which provides over forty maternity and women's health case histories, questions, and responses based on real life client situations. Every case contains an introductory "blueprint" of variables that must be considered while evaluating a particular scenario, which are pertinent concerning the client, nursing protocol, and setting of care. Examples of these variables include age, gender, or culture of the client, the client with a pre-existing condition, legal issues, or communication skills. Each blueprint and case is different, just as each clinical situation is unique to others. By allowing learners to simulate the actual decision-making process, they can gain a comfort level to make informed clinical judgments that will help them become successful nurses. Quite simply, *Clinical Decision Making* shortens the distance
